

## ROXY NIGHTS

The Roxy Nights are a beautiful design collaboration between Peñamade x Tineke Triggs for her 2023 Showcase Primary Bedroom. We love the combination of styles and materials that is going on within these nights. To add energy to the design, we highlighted the oak's flowy end grain for the faces, and ran the grain horizontal versus vertical. The curved nights are supported by a hidden shim allowing them to appear to float and feel weightless even though they are topped with Arabesco Marble. The soft-closed drawers are all hand-built solid white oak, and use Hoffman's Hammered Brass Pulls.
